Ceiling Mount	\$29
Door Frame Mount	\$19
Glass/Metal Wall Mount	\$29
Junction Box Mount	\$39
30W PoE+ Injector	\$29

Low Profile Wall Mount Kit - \$19

For mounting the sensor in areas with limited space above the entryway (requires minimum 3.75" clearance).

Kit includes:

- 1x Density Low Profile Mount
- 2x Multi-Surface Screws
- 2x Multi-Surface Anchors
- 1x Hex Key

Refer to section 6 of the [Physical Installation Guide](#) for mounting instructions.

Ceiling Mount Kit - \$29

For mounting the sensor to the ceiling in front of the entryway. Kit includes two options (Toggle Anchor or Screw Mount Nut) for hollow or solid ceilings of a variety of surface materials (drywall, wood, metal, tile, stone, plaster).

Kit includes:

- 1x Density Utility Mount
- 1x Toggle Anchor (for hollow ceilings)
- 1x Screw Mount Nut (for solid and hollow ceilings)
- 3x Multi-Surface Screws
- 3x Multi-Surface Anchors
- 1x Steel Washer
- 1x Hex Nut
- 1x Hex Key

Note: Ceiling Mount Kit requires additional purchase of 1/2in-13 threaded rod of desired length (min: 3.5 inch length).

Refer to section 7 and 8 of the [Physical Installation Guide](#) for mounting instructions.

Door Frame Mount Kit - \$19

For mounting the sensor to the top or bottom surface of a wood or metal door frame.

Kit includes:

- 1x Density Utility Mount
- 2x Self-Drilling Screws
- 1x Hex Key

Refer to section 9 and 10 of the [Physical Installation Guide](#) for mounting instructions.

Glass/Metal Mount Kit - \$29

For mounting the sensor to a smooth glass or metal surface with semi-permanent adhesive.

Kit includes:

- 1x Density Glass/Metal Adhesive Mount
- 1x Hex Key

Note: The Glass/Metal Adhesive Mount requires a 72hr curing process before the sensor can be installed. Use of a hand roller is highly recommended.

Refer to section 11 of the [Physical Installation Guide](#) for mounting instructions.

Junction Box Mount Kit - \$39

For mounting the sensor directly to a wall outlet or single gang junction box.

Kit includes:

- 1x Density Junction Box Mount
- 2x Steel Slotted Oval Head Screws
- 1x 6in cat-6 Flat Ethernet Cable
- 1x RJ45 Female-to-Female Jack
- 1x Punch Down Keystone Jack
- 1x Hex Key

Refer to section 12 of the [Physical Installation Guide](#) for mounting instructions.

30W PoE+ Injector - \$39

For installations without the ability to power the sensor via ethernet cable (PoE). To use, plug in an ethernet cable into the injector for data supply, then plug the injector into a wall outlet. The PoE+ injector will take power directly from the outlet and output both data and power to the sensor.

Note: For use in US/Canada ONLY.

Kit includes:

- 1x 30W PoE+ Injector with Pigtail

Please reach out to sales@density.io for additional links for purchase if you require a PoE+ Injector for an international install.
